IP20 Indica la resistenza offerta dall'apparecchio alla penetrazione di solidi e liquidi, denominata con il codice IP (International Protection) e seguita da due cifre, 2 che indica il grado di protezione contro l'ingresso di corpi solidi (protetto per corpi di dimensioni superiori a 12mm) e 0, che indica il grado di protezione contro l'ingresso di corpi liquidi (non protetto).
Indicates the resistance given by the lighting fitting to the penetration of solids and liquids, stated by the code IP (International Protection) and followed by two digits, 2 which means the rate of protection against the entry of solid parts (protected against entry of solid parts with dimensions more than 12mm), and 0, which indicates the rate of protection against the entry of liquid parts (not protected).

-  **CLASSE I** Apparecchi con parti metalliche costantemente collegate al circuito terra
Equipments with metal parts constantly connected to the earth circuit.
-  **CLASSE II** Apparecchi provvisti di doppio isolamento o isolamento rinforzato e senza dispositivi di messa a terra
Equipments provided with double insulation or reinforced insulation without earthing devices
-  **CLASSE III** Apparecchi alimentati con tensione di sicurezza inferiore ai 50V
Equipments powered with safety voltage lower than 50V.
-  Apparecchi idonei a essere montati su superfici normalmente infiammabili
Equipments suitable to be fitted on normally inflammable surfaces.
