DROP

design Brian Rasmussen

[En] > When the lighting fixtures is off, the surface of the silkscreened glass diffuser looks like an even white surface, and you can see only the outlines of the floral decoration. When on, the surface is alive with different color shades, due to the number of silkscreen layers. Along the outline of the decoration, the light is clearer because there is less color; instead towards the center, where there is more color, the intensity of light decreases.

[It] > La superficie serigrafata del diffusore in vetro piano, quando la lampada è spenta, si presenta come una superficie omogenea bianca in cui si notano solo i contorni del decoro floreale. Con la luce, la superficie si anima di diverse tonalità determinate dalla quantità di strati di serigrafia. Lungo il perimetro, la luce è più chiara poichè minore è l'apporto di colore, mentre verso il centro, dove questo è maggiore, diminuisce l'intensità luminosa.

DROP MIRROR wall

design Brian Rasmussen

[En] > The DROP MIRROR version replaces the silkscreened glass plate with a mirror.
The mirror has a sandblasted band which is illuminated from behind.
The lamp also illuminates laterally through the prismatic PMMA structure.

[It] > La versione DROP MIRROR sostituisce la lastra in vetro serigrafato con uno specchio. Lo specchio ha un bordo sabbato che lascia passare l'illuminazione retrostante.
La lampada si illumina anche lateralmente attraverso la struttura in PMMA prismatica.

Following the extraordinary success the ECLISSE collection is getting bigger and more versatile. The new TUBE version presents itself as Suspension, Ceiling and Wall sconce. Both Suspension and ceiling version have 3 different sizes which, combined with the 3 finishes of the metal structure, creates a large variety of possibilities. The metal structure, Suspension & Wall version: Ø 60 mm Ceiling version: Ø 100 mm, is a 2 mm thick extruded aluminium tube. The wall sconce has the possibility of a double light emission creating a characteristic light effect on the surrounding wall.

Seguendo lo straordinario successo la collezione ECLISSE viene ampliata creando così un'offerta ancora più versatile. La nuova versione TUBE si presenta come Sospensione, Plafoniera e Applique. Sia la Sospensione che la Plafoniera hanno 3 misure che, combinate con le 3 finiture della struttura metallica, creano una grande varietà di possibilità. Il tubo metallico, Sospensione e Applique: Ø 60 mm - Plafoniera: Ø 100 mm, è in alluminio estruso con spessore di 2 mm. L'appliche ha la possibilità di doppia emissione luminosa creando un effetto caratteristico sulla parete circostante.

 Sorgente LED attacco GU10 con emissione di luce diretta.

[En] > **Cone of light.**

The slow process of transformation of a tubular metal section to a slim and tapered cone, seems to attribute to the light-source the act of freezing the beam of light into a solid object. Last but not least, the varying color options, give the product an elegant and contemporary character.

[It] > **Cono di luce**

Il lento processo di trasformazione di un elemento tubolare in ferro in un cono dalla forma affusolata e snella, sembra voler attribuire alla luce l'atto di aver congelato e reso solido un fascio luminoso. L'accurata levigatezza della superficie, Infine, la svariata gamma di colorazioni, in cui è disponibile la lampada, ne conferisce un carattere elegante e contemporaneo.

LUNARDA

design Alessandro Lenarda

[En] > Turned metal lamp, 3D laser cut.
It is formed by a circular element, rotates 360°
and it is available in 2 sizes: diam. 35 e 60 cm.
The result is that of a luminous crown with a pleasant directable –
non indirect light that illuminates the wall and is free of glaring effects.
Dimmable LED light source. Depth ADA.

[It] > Lampada tornita in metallo, tagliata a laser 3D.
È formata da un elemento circolare, ruota a 360°
ed è disponibile in 2 misure diam. 35 e 60 cm.
Il risultato è quello di una corona luminosa
con una gradevole luce direzionabile - non indiretta
che illumina la parete è priva di effetti abbaglianti.
Sorgente luminosa LED dimmerabile. Profondità ADA.

[En] > Bi-emission lighting.

The constructive principle of the lamp allows a double light emission.

This detail makes the product capable of illuminating the surrounding space with a 360 degrees light.

The upper and lower light emission are equal both for what concerns quantity and colour giving a completely homogeneous effect.

[It] > Bi-emissione luminosa

Il principio costruttivo delle lampade rende possibile una doppia emissione luminosa:

in tal modo l'ambiente circostante viene illuminato a 360 gradi.

Inoltre, la luce orientata verso l'alto e verso il basso è uguale sia per quantità che per colore al fine di rendere il flusso di luce completamente omogeneo.

[En] > A continuous circle of light.

The upper and lower diffusers in PMMA are completely without any fixing elements which allows the light emission to be perfectly continuous.

This is possible thanks to an innovative construction of the section of the lamp which unites the two sides through an internal metal bracket.

The same bracket supports the light source which is integrated in a silicone body allowing the light emission to be completely uniform.

The lamp has a double light emission.

[It] > I diffusori, inferiore e superiore, sono in PMMA opalino.

Il flusso luminoso continuo è ottenuto grazie all'assenza di elementi di fissaggio e ad una costruzione innovativa del profilo della lampada che unisce le due pareti in metallo attraverso una staffa anch'essa in metallo.

La stessa staffa, poi, sostiene la sorgente luminosa che è inserita in un involucro di silicone.

In tal modo si elimina la puntinatura dello strip LED e si ottiene una luce perfettamente uniforme.

La lampada ha emissione luminosa sia verso l'alto che verso il basso.

VENEZIA

design Diego Chilò

[En] > A homage to the city of the excellence of blown glass. Each element represents an area (sestiere) of Venice.

The glass SAN MARCO naturally relates to the heart of the city, and its richness is expressed through the extraordinary Balloton technique (*)

The glass GIUDECCA is the tallest and thinnest element, just as the island of Giudecca itself, which stands out for its long shape.

In this way all the glasses have their own particularity that reflects the urban complexity of this unique city.

(*) Balloton engraving: based on the use of a metal mould containing pyramidal studs having a square base inside it, which give a criss-cross embossed effect upon blowing.

[It] > Un omaggio alla città del vetro soffiato d'eccellenza. Ogni elemento rappresenta un sestiere di Venezia.

Il vetro SAN MARCO si relaziona naturalmente al cuore della città e questa sua ricchezza viene trasmessa attraverso la lavorazione in Balloton (*).

Il vetro GIUDECCA è il vetro più alto e stretto, proprio come l'isola della Giudecca, che si distingue per la sua forma longitudinale.

In questo modo tutti i vetri hanno un loro particolarità che rispecchia la complessità urbana di questa città unica.

(*) Balloton: Tecnica usata per ottenere un particolare effetto ottico, si basa sull'uso di uno stampo in metallo contenente all'interno delle punte a piccola piramide a base quadrata che, nella soffiatura, danno un effetto di rilievo incrociato.

Cualquier sustitución por roturas o falta de mercancía serán sustituidas solamente con una notificación previa al trasportista y a la Compañía, al maximo 8 dias después de la entrega. El presente lista de precios completa y sustituye a todos los anteriores. La Compañía se reserva la posibilidad de hacer modificaciones en cualquier momento con el unico objetivo de mejorar.

CONDIZIONI GENERALI DI VENDITA ITALIA

- 1) La merce, accuratamente imballata, viaggia assicurata e sarà cura del destinatario controllare la stessa alla consegna, segnalando immediatamente gli eventuali danni al trasportatore e dandone comunicazione scritta all'azienda entro gli 8 giorni successivi alla data di consegna.
- 2) Eventuali difetti riscontrati sugli articoli, non imputabili a danneggiamenti subiti durante il trasporto, dovranno essere segnalati alla azienda per iscritto entro 30 giorni.
- 3) L'Imballo è compreso nel prezzo.
- 4) Le lampadine non sono comprese nel prezzo se non diversamente specificato.
- 5) Il minimo d'ordine è di € 250,00 netti.
- 6) Trasporti:
 - Tutte le spedizioni con importo netto superiore a € 600,00 (IVA esclusa) verranno effettuate in porto franco;
 - Per le spedizioni che non raggiungono il porto franco il trasporto verrà addebitato in fattura in base alle tariffe del corriere in uso;
 - Alle spedizioni effettuate in contrassegno verrà addebitato il contributo di € 11,00.
 - L'Azienda non è comunque tenuta ad avvisare il cliente del mancato raggiungimento del porto franco, dell'ammontare delle spese di trasporto e dell'effettuazione della spedizione in contrassegno.
- 7) Per pagamenti effettuati mediante ricevuta bancaria l'importo minimo per singolo effetto non dovrà essere inferiore a € 100,00.
- 8) L'azienda si riserva la facoltà di apportare ai modelli della propria collezione, in qualunque momento e senza previa comunicazione, ogni modifica ritenesse necessaria per il miglioramento costruttivo, estetico e commerciale degli stessi.
- 9) La tolleranza per piccole imperfezioni sul vetro e variazioni di tonalità sui colori é quella d'uso per oggetti prodotti a mano.
- 10) L'Azienda non accetta resi se non concordati e autorizzati per iscritto.
- 11) Il presente listino completa e sostituisce i precedenti.
- 12) Per ogni controversia, l'unico insindacabile foro è quello di Treviso.
- 13) I prezzi indicati nel presente listino sono comprensivi di EcoContributo RAEE (Consorzio ECOLIGHT).
- 14) Le misure sono espresse in centimetri.
- 15) I prezzi sono IVA esclusa
