# Construction Lamp Floor

JOOST VAN BLEISWIJK, 2012

The Construction lamp ultimately originates from a bright curiosity combined with expert skills, industrial tools and a touch of playful passion for vintage construction toys. As a result, the lamp's details and joints take the shape of Victorian cast iron components and become part of a base that resembles a traditional electricity pole. Enjoy a high voltage stream of inventiveness and light!

# Filigree Floor Lamp

RICK TEGELAAR, 2016

“What distinguishes a lamp from a light source?” is the question that initially triggered Rick Tegelaar to imagine and create the Filigree Floorlamp. Thanks to an elegant and dainty network of fine wires, that reminds us of delicate filigree jewelry, the translucent screen protecting the powerful LED light at the heart of the lamp is held under tension, distributing a soft light glow evenly across the room. When pointed towards a wall or ceiling, with the ornamental filigree flower structure facing us, the lamp projects a playful network of shadows to mesmerize and entertain.

# Horse Lamp

FRONT, 2006

True to the dimensions of a real horse, the Horse Lamp by Front brings a touch of nature in fairytale style and genuine madness. His talent to make a bold statement is so well-developed, that trying to feed him carrots wouldn't do him justice. In fact; a spotlight is what he deserves.

## NR2 Floor Lamp

BERTJAN POT, 2020

Like its suspended family members, the NR2 Floor Lamp, by Bertjan Pot, sports an elegant and bright oval-shaped bubble of white or black thread. Thanks to the airy lattice pattern of the bubble and the sleek steel column, the NR2 Floor Lamp doesn't block any views. Put this versatile design in any place that needs brightening up, such as a dark hallway or next to your favourite reading spot. The integrated LED lamp in NR2 subtly diffuses a soft and magical glow. NR2 Floor Lamp is available in two different colours.

## Perch Light Floor

UMUT YAMAC, 2016

Look up, into the soft light, follow the fluttering sound and sparks of movement. A bird is gracefully balanced on a tall metal perch, beautiful and proud, a swinging glimmer of warm light... yet you are inside, after daylight has faded, under the spell of the Perch Light Floor Lamp!

## Prop Light Floor

BERTJAN POT, 2013

"We have round lights, we have straight lights. We have them with lights on one side, we have them with lights on two sides. You can hang them high, low, horizontally, vertically or even hang them in an angle. Put them on the floor, hang them on your wall or down from the ceiling. We find it very hard to imagine an interior where this prop is not in place" - Bertjan Pot

## Raimond II Tensegrity

RAIMOND PUTS, 2014

The Raimond Tensegrity is a floor lamp made from elegant metal, complemented with the sturdy earthiness of wood.

Tensegrity is a term that was first described by Buckminster Fuller as an architectural term. It refers to the interconnected wooden structure that uses tension and pressure to keep its shape. The beauty of the Raimond Tensegrity lies not only in its contrasting materials, but also in the trigonometric harmony of both structures. Mathematical perfection times two.

# Random Floor Lamp II

BERTJAN POT, 2001

A floor lamp is one of the most versatile lighting solutions to have in your home. Especially one that diffuses light in all directions, lighting up every dark corner. The Random Floor Lamp II holds the same simplicity and lightness as the rest of its family members. Beautifully transparent and 'light'.

## Statistocrat Floor Lamp

ATELIER VAN LIESHOUT, 2014

The floor lamp's lean aluminium body is really multifunctional with its towering two meters and all-embracing light beams, the tallest shade projecting light towards the ceiling while the wider shade acts as the perfect reading lamp. And what about the two other shades? The lowest is no shade ... but a surprisingly useful side table. Perfect to support a laptop or your favorite drink, it's always in the spotlight!

# T-Lamp

MARCEL WANDERS, 2015

Based on the concepts of movement, grace and energy, the T-Lamp by Marcel Wanders studio visually reminds us of the fluidity and light motion of Alexander Calder's kinetic mobiles.

# Bell Lamp

MARCEL WANDERS, 2012

"Ting!" is the thing, as there is no gathering without loved ones to gather with. The Bell Lamp represents a very early and essential form of communication, generating a welcoming ring that brings people together for festivities and congregations. With a bottle of champagne and a pile of fruits, the table is decked.

## Cluster Lamp

JOEL DEGERMARK, 2004

Joel Degemark's Cluster Lamp is not just a fun eye-catcher that lights up your home. The fun begins before you put it in place. The Cluster Lamp comes without light sources, meaning you can get creative and design a unique lamp that fully suits your interior. The lamp gives room to five light sources of your choice. Big bulbs, small bulbs, coloured glass, frosted glass, round bulbs, flame bulbs, tubular bulbs, etc. The possibilities and combinations are endless. Let your imagination fly and create your own unique Cluster Lamp!

## Coppélia Suspended

ARIHIRO MIYAKE, 2015

Coppélia comes to life in a whirl of flowing motion and sparkling light. With a graceful sense of wonder, a beautiful mechanical doll appears to magically come to life in the famous ballet Coppélia. In the performance the ballerina traces, with sinuous movements, a delicate after-image in the air, which inspires the fluid motion in the design of Miyake's Coppélia Suspended Lamp. The graceful dance, staged by the three-dimensionally crossed wire structure, leads the spectator to dozens of glowing LED lights, which define the contour and the magical glow of Miyake's interpretation of a classic chandelier.

## Emperor Suspended

NERI AND HU, 2009

Once upon a time an Asian emperor received as a gift a nightingale. The charming bird sang so beautifully that the emperor always wanted it by his side. He placed the nightingale a majestic hand woven bamboo cage in the imperial chambers and listened, enchanted, to the magic sound...

## Gravity Chandelier

PAUL COCKSEGE, 2021

The Gravity Chandelier by Paul Cocksedg re-imagines the chandeliers of the past. Inspired by changing rigidity to elasticity. The Gravity Chandelier is the definition of a modern chandelier. At first glance, it doesn't reveal its flexibility and cleverness; It takes a second look to unravel its mystery. With its flexible arms, you define the chandelier's diameter and choose where the light travels, but the suspended elements create natural curves shaped by gravity.

The Gravity Chandelier comes in two sizes, after the number of arms, Gravity Chandelier 5 and Gravity Chandelier 7.

# Heracleum III Endless

BERTJAN POT | POWERED THROUGH ELECTROSANDWICH® BY MARCEL WANDERS, 2014

Heracleum III Endless, by Bertjan Pot, is a perpetual blossom of new branches that multiplies by the meter. Starting out as an experiment and inspired by its namesake flower, Heracleum III Endless know no bounds. Every Heracleum III Endless can be connected to each other, to make a suspended lighting design that goes on forever. Heracleum III Endless is a design not possible with normal wires. It's powered by Electrosandwich, a technique of coating conductive layers invented by Marcel Wanders studio. Heracleum III Endless comes in four colours and is compatible with our Wireless Wall Switch: quick and easy dimming that gives you full control over the light output.

## Heracleum III Linear

BERTJAN POT | POWERED THROUGH ELECTROSANDWICH® BY MARCEL WANDERS, 2022

Don't confuse the new Heracleum III Linear with its Endless sibling. Look closely and you'll see blossoms gently sweeping upwards at either side, making the Heracleum III Linear perfect to hang above long surfaces, like your dining table or kitchen island. Like the other designs in the Heracleum family, the lean branches are powered by Electrosandwich, by Marcel Wanders studio.

The Heracleum III Linear, available in four colours, is inspired by the flowering plant of the same name. Its bloom frozen in time. This most recent design in the Heracleum family is compatible with our Wireless Wall Switch and contains bright LEDs; together they offer a higher light output that creates a warm glow.

## Heracleum III Suspended

BERTJAN POT | POWERED THROUGH ELECTROSANDWICH® BY MARCEL WANDERS, 2010

Nature meets technology in Heracleum III Suspended by Bertjan Pot. This airy LED lamp is inspired by the flowering plant of the same name that can grow as high as 5 metres. The white leaves in Heracleum III Suspended ramify from one branch, creating a very technical, natural structure thanks to a technique of coating conductive layers called Electrosandwich by Marcel Wanders studio. Heracleum III Suspended comes in two sizes and four different colours. Compatible with our Wireless Wall Switch, for quick and easy dimming that gives you full control over the light output.

## Heracleum III The Big O

BERTJAN POT | POWERED THROUGH ELECTROSANDWICH® BY MARCEL WANDERS, 2014

In the Heracleum III The Big O, by Bertjan Pot, the flowering leaves are shaped in a blossoming crown. In the old days, a circular crown was a symbol of power, eternity, and glory. The Heracleum III The Big O adds the beauty of nature and prosperity to that row. Available in two sizes and four colours, this suspended lighting design is suitable for any space and crowns any interior. Like the other designs in the Heracleum family, the lean branches are powered by Electrosandwich, by Marcel Wanders studio. Compatible with our Wireless Wall Switch, for quick and easy dimming that gives you full control over the light output.

## Iconic Eyes

BERNHARD DESSECKER, 2018

The first sparkle of this great idea was inspired by iconic automotive headlights. They have been modified to design a grand pendant light with a classy, powerful impact for the foyer of the Bavarian National Museum in Germany. The light's oval design is modern with a classic touch. It generates a precious ambient glow enhanced by bright rings of light and is produced in two sizes. Glorious and breath-taking in appearance, it consists of numerous lenses and a constellation of LED lights.

## Lolita suspended

NIKA ZUPANC, 2008

"Who is afraid of pink? My imagination chases female archetypes intentionally. Frivolous, even naive objects are my favorite victims. And when, during such a process, I manage to be creative in an evidently reserved way, I then touch the purest meaning of my work and frivolity becomes timeless elegance."

# Meshmatics

RICK TEGELAAR, 2017

Whoever sets eyes on the Meshmatics Chandelier will never guess what hides behind its sophisticated appearance. Rick Tegelaar elevated the nature of humble wire netting by developing a machine and a set of tools to model it with accuracy. The full potential of this thin and flexible material is stretched and captured within three layers of beauty.

## NR2

BERTJAN POT, 2015

NR2 by Bertjan Pot is an elegant and bright bubble of white or black thread. The lattice pattern creates a fine web that shines and glimmers in the light. The fine web is oval-shaped and bears the signature style of Bertjan Pot; designs created from an experiment with different materials. The integrated LED lamp in NR2 subtly diffuses a soft and magical glow around the room. NR2 is available in two different colours and sizes.

# NomNom Light *New*

ODIN VISSER, 2022

Can. Not. Resist! The NomNom Light by Odin Visser is a contemporary lighting design that puts a smile on your face and a tingle in your belly. This modestly sized suspension light is the perfect example of the art of omission, while remaining distinctive. Two straight lines and a sphere that create the illusion of two chopsticks holding something delicious. As a stand-alone, there's no way around NomNom's playful elegance, but when multiplied in a bundle or in a row, it's simply irresistible. The NomNom Light makes us hungry for more! And with six colours to choose from, there's always a new flavour to try out.

# Plant Chandelier

KRANEN/GILLE, 2018

The philosophy behind the Plant Chandelier, designed by Kranen/Gille, is the imitation of nature's structures while indulging in the poetry of their beauty. Inspired by the linear patterns of Karl Blossfeldt's plant photography, and unrestricted by cables or wires, the Plant Chandelier is free to elegantly bloom towards the ceiling. Its silhouette follows the anatomy of sun-kissed tree branches, with a golden glow, which converges into frosted domes of light.

## Plié Plissé Light

LUKAS BAZLE, 2021

Plié Plissé Light by Lukas Bazle is inspired by the kinetic movements found in nature. This kinetic design has an adjustable cellular pleated shade that lets you choose the intensity and direction of the light. Unfolded, the light is soft and diffused. Perfect for (dinner) parties and lighting your whole room up. Fold the shade in and the lamp shines downwards and more intense, making it easier to work or read a book. As if dancing, Plié Plissé Light moves along with the rhythm of your day.

# Prop Light Suspended

BERTJAN POT, 2013

"We have round lights, we have straight lights. We have them with lights on one side, we have them with lights on two sides. You can hang them high, low, horizontally, vertically or even hang them in an angle. Put them on the floor, hang them on your wall or down from the ceiling. We find it very hard to imagine an interior where this prop is not in place" - Bertjan Pot

# Raimond II

RAIMOND PUTS, 2009

The Raimond lights: perfect spheres of mathematical ingredients punctuated by tiny LED lights. Designer Raimond Puts was not only intrigued by the shape of the geodesic dome, but also with the mystery of prime numbers. It's no coincidence that the dimension of all Raimond lights resemble a prime number. The result of mathematical perfection, that brings the starry night sky into your home.

Compatible with our Wireless Wall Switch, for quick and easy dimming that gives you full control over the light output.

## Raimond II Dome

RAIMOND PUTS, 2013

The Raimond Dome is made of the same mathematical ingredients as its spherical family members. Also punctuated by tiny LED lights but amplified with a powerful light source in its centre. Looking at the Raimond Dome feels like staring into the soft glow of a starry night, making it the perfect light for dining under the stars. Designer Raimond Puts passed away before he could see the final design. Together with Raimond's wife, artist & designer Tis Ernst, Moooi completed the Raimond Dome.

Raimond Dome 79 is compatible with our Wireless Wall Switch, for quick and easy dimming that gives you full control over the light output.

## Raimond II R127-R163-R199

RAIMOND PUTS, 2009

The Raimond lights: perfect spheres of mathematical ingredients punctuated by tiny LED lights. Designer Raimond Puts was intrigued by the shape of the geodesic dome and with the mystery of prime numbers. It's no coincidence that the dimension of all Raimond lights resembles a prime number. The result of mathematical perfection that brings the starry night sky into your home.

## Raimond II Zafu

RAIMOND PUTS, 2009

The Raimond Zafu creates an extra-terrestrial effect with its elliptical shape and tiny LED-lights. Like its spherical family members, the Raimond Zafu is made from the same elegant metal strips and mathematical ingredients. The name Zafu comes from the transcendental shape inspired by designer Raimond Puts' meditation cushion.

Raimond Zafu is compatible with our Wireless Wall Switch, for quick and easy dimming that gives you full control over the light output.

# Serpentine Light

FRONT, 2022

Serpentine Light by Front is an airy suspension lamp created with elaborate twists and turns. The lighting design originated from twisting and turning a piece of paper. By playing with the tension and natural flow—discovering the limits of the different shapes paper could adopt. The dark lines create the effect of an endless upwards spiral. The flow and curve of the almost translucent material is very natural and diffuses the light evenly. The design's strong character and illusion of perpetual movement makes it the perfect lamp to hang above your dining table, in your hallway, or above your desk in your office. The lightweight material and perpetual movement make the Serpentine Light an elegant suspension light that keeps you guessing.

# Smoke Chandelier

MAARTEN BAAS, 2002

Furniture finished with fire. The beauty and character of burned wood is now captured in a long lasting material. By creating the strange sensation of a burnt chandelier Maarten Baas interpreted his fascination for the element fire with a groundbreaking approach. Capturing the burning flames into the solidity of wood. Each Chandelier is unique due to this exceptional production process. Just like the Phoenix, the Smoke objects are reborn from their ashes, gaining new vitality and beauty in a very unusual way.

## Lolita Table Lamp

NIKA ZUPANC, 2008

Who is afraid of pink? My imagination chases female archetypes intentionally. Frivolous, even naive objects are my favorite victims. And when, during such a process, I manage to be creative in an evidently reserved way, I then touch the purest meaning of my work and frivolity becomes timeless elegance.

# Space Table Lamp

WARD WIJNANT, 2020

The Space Table Lamp, designed by Ward Wijnant, is as much a mirror as it is a table lamp. Untouched the lamp reflects its surroundings, but the mirror will become translucent when the lamp is turned on. The lamp has four different light settings and features an innovative Dim-To-Disco option that will make the bulbs change from warm light into soft pastel, to eventually start a colorful disco.

## The Party Wall Lamp

KRANEN/GILLE, 2018

The Party' is inspired by a clan of strong, captivating personalities. Their casted ceramic faces bring to light our fascination with secrets, family dynamics and intrigue. If seen together, as a splendid party, they brighten up the stage with their cool playfulness. Yet behind the lamps' composed façades a mischievous side seeps through and touches our imagination.

## Charleston Sofa

MARCEL WANDERS, 2016

The beauty of iconic pieces needs to be turned around, played with, and challenged in innovative ways to reach new levels of inventiveness and seduction! Charleston by Marcel Wanders studio is a classic sofa, elegant and comfortable, dressed in stylish black leather with embroidered accents, that has been shifted into a vertical posture. Its grace becomes slender and elongated, tall and majestic, while it plays with our mindset and expectations. The traditional armrest becomes a very comfortable seat for one or two people. Certainly an eye catcher, Charleston is also a cozy companion that literally turns the corner to open a new world of possibilities!

# Hana Armchair

SIMONE BONANNI, 2019

Create your own world in your safe space that is the Hana Armchair. Let the softness of the folds lure you in and when you step into that abundance of soft fabric, you're stepping into your own space and away from the hustle and bustle of the world. A moment of contemplation and ultimate relaxation. Mindfulness made tangible in the shape of a chair. The Hana is sculptured around the human body and its need to be pampered, embraced and accommodated for long stretches of time. The generous, cute, subtly curves allow for hours of lounging to daydream, read a book and let your imagination fly.

## Hortensia Armchair

ANDRÉS REISINGER & JÚLIA ESQUÉ, 2018

The Hortensia Armchair, by Andrés Reisinger & Júlia Esqué, innovatively replicates the beauty of nature. This blooming beauty is inspired by the basic human need for warmth and comfort. Sit down and feel comforted, calm, and soothed. As if you're sitting in a blooming flower, enveloped in smooth and gentle petals. The wondrous Hortensia Armchair will be the softest place in your home.

Configurable in a range of different fabrics and leathers of your choice, the Hortensia Armchair blooms in any interior.

# Liberty Lounger

ATELIER VAN LIESHOUT, 2018

Sculptor Joep van Lieshout set himself a goal: to create one chair per day for a month. He named the project Prototypes as part of his utopian project New Tribal Labyrinth. This futuristic vision focuses on the reinvention of the industrial revolution by recreating an ideal world based on the lost relationship between individuals and raw materials.

# Nest Armchair

MARCEL WANDERS, 2013

Enjoy a cosy nest all to yourself. The Nest Armchair is a comfy elevated nest shaped as a one-seater. This Armchair is all about its cushions, so they are available in a wide range of fabrics and you can design your Nest completely to taste. For the lovers of colourful prints, Marcel Wanders studio has developed two signature textiles. 'Flower bits', with a bloom of flowers and butterflies. And 'One minute', with splashes of blue skies. Or choose 'Patio Outdoor' and enjoy your Nest in your garden, balcony, or patio.

## Smoke Armchair

MAARTEN BAAS, 2002

Furniture finished with fire. The beauty and character of burned wood is now captured in a long lasting material, creating the strange sensation of sitting on burnt furniture Maarten Baas interpreted his fascination for the element fire with a groundbreaking approach. Capturing the burning flames into the solidity of wood. Each chair is unique due to this exceptional production process. Just like the Phoenix, the Smoke objects are reborn from their ashes, gaining new vitality and beauty in a very unusual way.

# The Golden Chair

NIKA ZUPANC, 2013

Under a mysterious magic spell, a retro-looking school chair is dipped in enchanted golden nectar, which washes away its austerity and crowns it with a shiny aureole. Isn't this a typical school-time wish, while looking out of the window and hoping for a fairytale to begin? The Golden Chair got a black framed sister in 2018, and both can be dressed in a selection of fabrics to match different interiors.

# Monster Chair

MARCEL WANDERS, 2014

A soft, puffy and stylish chair as symbol of the eternal battle between opposite forces that take place in life and can be easily recognized inside ourselves, if we have the courage to open our eyes. Scary? Not at all! You forget all about the monster once you sit down and enjoy the chair's comfort and softness. The signature version, the fearless leader of our Monster family, comes upholstered in Moooi Original Black Synthetic Leather with an embroidered face.

# Shift Dining Chair

JONAS FORSMAN, 2014

When we think of dining on foldable chairs we automatically recall a garden lunch of a day at the beach: lovely moments, but far from the most comfortable experiences. Practically versatile, cozily adorned with its padded seat and soft knitted backrest, the Shift Dining Chair is the perfect chair to be shifted into a compact metropolitan kitchen or intimate dining room. Dining on a foldable chair has never been as comfortable.

## Smoke Dining Chair

MAARTEN BAAS, 2002

Don't burn the diner – burn the dining chair! The beauty and character of burned wood is now captured in a long lasting material, creating the strange sensation of sitting on burnt furniture. Maarten Baas interpreted his fascination for the element fire with a groundbreaking approach. Capturing the burning flames into the solidity of wood. Each chair is unique due to this exceptional production process. Just like the Phoenix, the Smoke objects are reborn from their ashes, gaining new vitality and beauty in a very unusual way.

# Aldora Chaise Longue

CRISTINA CELESTINO , 2022

The Aldora Chaise Longue, by Cristina Celestino, is available with a wing on either left or right side. The seater is a contemporary spin on a classical concept. The soft feminine shapes are inspired by the graceful petals of calla lilies and has the allure of Milanese bourgeois decadence. With the Aldora Chaise Longue, Christina Celestino created an iconic piece with a wide range of inspirations and a subtle nod to her heritage.

The Aldora Chaise Longue is also available as a sofa with wings on both sides. Configure the Aldora Chaise Longue to your personal tastes with the online configurator. Choose from a wide selection of fabrics and leathers and discover what it looks like with our AR tool.

## Bart Sofa

MOOOI, 2013

Have you ever thought of bringing a touch of grandeur to your home, without the formality of genuine antiques? Inspired by 18th-century Rococo, the Bart Sofa reinterprets such splendour. It adds genuine pleasure and softness to the classic silhouette by using modern-day techniques and a timeless eye for detail. Enjoy 'rounding' off your home with the friendly tenderness of the Bart Sofa!

## Nest Sofa

MARCEL WANDERS, 2013

The Nest Sofa is a comfy elevated nest for one or more people. This sofa is all about its cushions, so they are available in a wide range of fabrics and you can design your nest completely to taste. For the lovers of colourful prints, Marcel Wanders studio has developed two signature textiles. 'Flower bits', with a bloom of flowers and butterflies. And 'One minute', with splashes of blue skies. Or choose 'Patio Outdoor' and enjoy your Nest in your garden, balcony, or patio.

# Sofa So Good

MARCEL WANDERS, 2020

Sofa So Good by Marcel Wanders studio is a modular sofa system made of generous proportions and feather-like softness. It's made from the highest quality materials and combines smart design and ultimate comfort. A story of contrasts with its linear framework and curvy softness.

The sofa system includes eight different upholstered modules, two tables and three shelves. The tables and shelves are available in six different wood finishes. An eclectic range of fabrics to choose from—like the newly added colours in the Extinct Animals fabric collection—completes the set-up. Sofa So Good is endlessly versatile and is suitable for any interior. In our online configurator you don't just create a sofa; you create a personal space tailored to your needs.

## No Screw No Glue Cabinet

JOOST VAN BLEISWIJK, 2021

No Screw No Glue Cabinet by Joost van Bleiswijk is the archetypal cabinet with a classic and iconic feel, but with a modern twist. It's constructed from an innovative and eco-conscious material, Richlite. Richlite is made from recycled paper, responsibly harvested trees, and EcoBind resin. It's durable and sustainable.

As the name implies, the No Screw No Glue Cabinet needs no screws or glue. You don't even need tools to put it together. To connect the elements and give the cabinet shape, you slide the elements into each other. No Screw No Glue celebrates that feeling of accomplishment when you create something with your own hands.

## Obon Table

SIMONE BONANNI, 2017

Obon is a collection of three tables inspired by an ancient, earthy, irregular material: terra-cotta. With its origins lost in the mists of time, terracotta is at the base of millenary archaeological finds all over the world. These precious discoveries are evidence of our timeless creativity and desire to leave a sign, admire and ritualize.

# Liberty Table

ATELIER VAN LIESHOUT, 2018

The Liberty table, designed by Atelier Van Lieshout, is a typical example of artwork turned into a design object, just like the earlier released Liberty Lounger. With the Liberty Table, Atelier Van Lieshout continues to address the New Tribal Labyrinth and "Arts and Crafts" movement with traditional craftsmanship and using simple forms.

# Monster Table

MARCEL WANDERS

The Monster table is the largest Monster ever created. It has the same great genes and curving lines of the Monster chair. The Monster table has a huge appetite that needs to be satisfied, so we advice to have a gathering around the Monster table at least once a day, preferably around dinner time. Do not forget to feed it with flowers, poetry and love.

## Zio Dining Table

MARCEL WANDERS, 2013

In most households the table is the central piece of the dining room, the heart around which families gather, entertain and relax. Many special memories revolve around its steady presence. With their graceful look and refined details, the Zio tables by Marcel Wanders studio bring a touch of style to any moment.

## Discover the digital world of Moooi

Discover the digital world of Moooi on [moooi.com](https://moooi.com). On our website you can find our entire collection, designers' information, editorial stories, inspirational photography and much more. Our product pages contain technical information and specifications, cleaning instructions, 2D & 3D files and high-resolution images. Via the product pages you and your customers can access new tools such as our online configurator, AR tool and size comparison.

### *Online configurator*

With our online configurator, available on desktop and mobile (iOS only), anyone can customise their favourite Moooi sofa, chair or table. The online configurator shows what leathers, fabrics, and other materials are available for each design.

### *Sample service*

Order your complimentary samples, size 7 x 7 cm of leather, fabrics, and materials on [Moooi.com](https://moooi.com).

### *Use AR as an interior design tool*

Curious about how a design looks like in an interior? Use our Augmented Reality (AR) tool. AR places virtual objects in someone's interior, so you can see upfront how a design looks in their home.

### *Size comparison*

Every product page on [Moooi.com](https://moooi.com) offers a size comparison possibility in Dimensions. This helps to visualize the size of a Moooi design in comparison with a basketball, chair or table.
