# Dimmer Options & Modifications

## Table and floor lamps

### ☐ Type II

The table and floor lamps with dimmer features are indicated in the technical specifications of each model in this price list.

All table and floor lamps with E27, E14, GU10 and G9 lamp holders can be adapted to achieve this dimming, provided they have the following features:

In our price list, you can find the E27, E14, GU10 and G9 dimmable bulbs recommended for each model, which you can incorporate into our table and floor lamps to be able to dimmer them.

Please contact us to find out the recommended dimmer surcharge for each table or floor lamp.

With these two elements installed in the lamp, simple dimming is achieved.

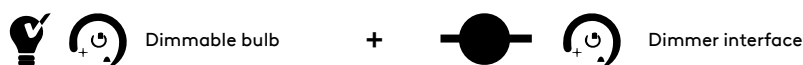

For more details and information on each model, please contact our technical department.

## Pendant and wall lamps

### ⊕ Type I

Those pendants and wall lamps with dimming features are indicated in the technical specifications of each model in this price list.

All pendants and wall lamps with E27, E14, GU10 and G9 lamp holders can be adapted to achieve this dimming, provided they have the following elements:

In our price list, you can find the E27, E14, GU10 and G9 dimmable bulbs recommended for each model, which you can incorporate into our table and floor lamps to be able to dimmer them.

Regarding to the dimmer or dimming interface, we have various types of dimming interfaces with protocols such as DALI, 0-10V, 1-10V, PUSH or TRIAC.

Depending on the model and features of the LED component (LED strip or chip) of the lamp, we can adapt the luminaire to each protocol.

With these two elements installed in the lamp, simple dimming is achieved.

For more details and information on each model, please contact our technical department.

# Create your lamp

In this space, we offer the possibility of generating your own multiple pendant based on any of our many individual pendants.

For this purpose, we present a series of special pendants in different shapes, sizes and finishes.

Just choose from the following options:

## 1. Which pendant is ideal for your lamp?

Browse through our extensive catalogue of individual pendants and choose the ideal one for your idea and space.

## 2. Shape and size of canopy

Check the space where the lamp will be installed and check which size and shape best suits it.

## 3. Finishes and outlets of the canopy

Our basic finishes are: **Matt black and matt white**

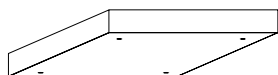

You must inform us of the number of outlets and their distribution by means of a sketch, drawing or similar.

\* For other finishes, please consult our technical and sales department.
